June 2024

Dear Catholic Academy of Stamford Students,

Congratulations on completing another year. In order to better prepare yourself for fifth grade, you are being asked to complete one summer math packet, one summer reading assignment and complete a reading log.

The attached documents provide you with the different assignments that you need to complete. Please carefully read the directions and make certain that all the parts are completed in order to receive a grade for your work/effort.

Math packets and reading assignments will be collected on the first two days of school. You can also bring it on the designated Sunday when you drop off your supplies.

Sincerely,  
Mr. Favata

## Summer Reading Assignments

- Choose at least one book to read. This must be a 5th grade level reading book and the content must be appropriate. No comics or graphic novels for this assignment. You are allowed to choose up to two for this assignment (of course you are encouraged to read as much as you want independently).
- Do a page and a half report on what you have read.
- An outline is provided to give some guidance on what to write about.

Introduction- Things to include in the introduction: The title (underlined) and author of the book. What kind of story is it? (realistic fiction? Historical fantasy? Historical fiction? Narrative nonfiction? Biography? Expository nonfiction? ...)

Body Paragraphs- In this section you want to describe the main parts of the story: theme, setting, plot, and characters. You must provide evidence from the story for each section. Then you give your opinions about the book. Each section should be at least 1 paragraph (4-5 sentences) long.

The Theme- is the main idea of the story. Some examples might be the importance of friendship or how to be courageous in a difficult situation. Tell what you think the theme is and how you know (use evidence from the text!).

The Setting- is the time and place of the story. Is it set a long time ago or now? Does it take place in another country or in an imaginary place? How much time passes in the story – a day? A year? A lifetime?

The Plot- is what happens. You want to tell what the story is mostly about. What is the main event or conflict? What things lead up to it? What happens as a result? How does the story end? (Sometimes you want to avoid telling the ending or giving away the secret of the story.) Be careful not to re-tell the whole story in detail. You want room in your report to write about other things; instead, just say enough about it so that the rest of your report will make sense.

The Characters- are who the story is about. The main character is called the protagonist. Who are the other important characters? Do they help or hinder the protagonist (main character)? Once you have summarized the book, you can tell what you think about it. You can write about whatever opinions you have! Some questions you might want to answer are:

- Do you like the story? Why or why not?
- What was the best part of the book? Why?
- How did the story make you feel? Did you feel different things at different points in the story?
- Would you recommend it to friends?
- Would you read other books by this author?
- What new things did you learn from this book?

Conclusion- This is just a quick paragraph to sum up your report. Give your overall opinion of the book and the most important thing you want other people to know about it. Sell your book so that others want to go read it!

# Reading Log

**Reading Strategies:**

1. Guessing/Predicting – What will happen next? What is the author trying to tell me?
2. Wondering – Why did the author write this? What else do I want to know?
3. Picturing – What can I see?
4. Noticing – What are the important ideas?
5. Figuring Out – How do all of the ideas fit together? What do I understand better after this reading?

Use complete sentences to tell about what you learned as you read. Include the page number.
