

ENTERING GRADE 6 - ELA

Read a MINIMUM of 2 books, (best way would be one book in July and one book in August).

*They can be any book in any genre, as well as non-fiction. Please be sure they are grade appropriate.

*The Social Studies curriculum in 6th Grade is ANCIENT CIVILIZATIONS, so reading about any 2 of this group would count.

*HIGHLY recommended by myself would be the following books: (reading one or both of these books count as well.

* LEARNING HOW TO LEARN

*A MIND FOR NUMBERS

Both of these books are by Barbara Oakley Ph.D. These books were written for students and give insight into the mind of students and provide ways students can improve their overall approach to learning. (One or both of these would count as well.)

You should write down the title of the books you read and the author. When school begins, there will be a graded activity for your completed reading.

Entering Grade 7- ELA

Please read a MINIMUM of 2 books, (best way would be one book in July and one in August)

*These can be any book from any genre including non-fiction. Please be sure they are grade appropriate.

*The Social Studies curriculum in Grade 7 is EARLY EXPLORERS to PRE-CIVIL WAR, so reading any fiction or non-fiction in these areas would count.

*HIGHLY recommended by myself would be the following would be:

*LEARNING HOW TO LEARN

*A MIND FOR NUMBERS

Both of these are written by Barbara Oakley PhD. These books were written for students and give insight into the minds of students and provide useful ways they can become better learners. (One or both of these books could count as well.

You should write down the books you read and their authors, when school begins there will be a graded assignment on your completed reading.

Entering Grade 8-ELA

Please read a MINIMUM of 2 books (best would be one in July and one in August).

*These can be any book from any genre, including non-fiction. Please be sure they are grade appropriate.

*The Social Studies curriculum is CIVIL WAR-EARLY 50's, so reading any fiction or nonfiction of these time periods counts.

*HIGHLY recommended by myself-

*LEARNING HOW TO LEARN

*A MIND FOR NUMBERS

Both of these were written by Barbara Oakley Ph.D. As you rise toward high school these books both written for students can give you insight and help prepare yourself for the next leg of your educational journey. Both or one of these books could count as well.

You should write down the title of your book and the author. When school begins there will be a graded assignment on your completed reading.
